Working for relatives.

Working for a business that is profit oriented.

Working for district employees.

Receiving any compensation other than service hours credit.

Portfolio Community Service Requirement

Community service is a portfolio requirement for all 10th - 12th grade students. Students will be required to perform 9 hours of community service during each of these high school years (27 total) and provide documentation for your portfolios. The purpose of this requirement is to encourage students to learn to give back to their community by donating their time and talents. Students will **not** receive community service credit by working for relatives, working for a business that is profit oriented, or working for compensation other than service hours credit. Students may receive up to 3 community service credit hours per year for school sponsored service activities performed outside of the regular school day. The school-sponsored credit must be pre-approved and signed by a school staff member. If in doubt of the approval of any activity, check with a teacher or administrator.

*If in question of the approval of the activity,
see the principal or Academic Advisor for pre-approval.*

**This signed document must be included in your portfolio
along with your reflective narrative.**
